

EXOFIT

PREMIUM EXOSOME

NOT EVERY EXOSOME PERFORMS. EXOFIT IS BUILT TO RESPOND.

A premium plant derived exosome complex formulated to support skin recovery, improve responsiveness, and bring visible skin quality back into motion.

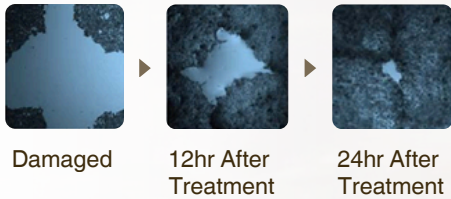

For clinics that seek stronger skin response, refined recovery, and elevated skin quality outcomes.

FROM CELL RESPONSE TO VISIBLE RECOVERY

In vitro observations and clinical case visuals supporting EXOFIT's recovery focused positioning

IN-VITRO OBSERVATION

CLINICAL CASE VISUAL

FIBROBLAST PROLIFERATION SUPPORT

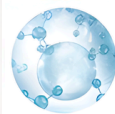

Supporting a more responsive skin environment with visible recovery oriented improvement.

KEY INGREDIENTS

Formulated with only essential components to support long-term skin health, prevent aging, and maintain optimal skin condition.

Ginseng plant cell derived Exosome
Plant based exosome derived from Ginseng that is safe and stable, excellent antioxidant and strengthening skin barrier.

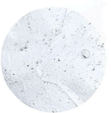

Hyaluronic acid
A natural moisturizer that provides sufficient moisture to the skin, making skin glow, elastic and strong from harmful substances such as bacteria.

Plant cell derived PDRN
Wound regeneration ability and protein production ability far superior than that of salmon PDRN.

Glutathione
An antioxidant that protects cells from free radicals which damage cells and cause aging.

Growth Factor & Multi biomimetic peptides
The optimal formulation of growth factors and biomimetic peptides that help prevent aging and maintain skin vitality.

Vitamin & Amino Acid & mineral complex
Provide skin cells with rich nutrition and optimal pH value, osmotic pressure creating a healthy cell growth environment for the skin.
